

El Metro Transit

Proposed Fixed Route Circulator Pilot Program

El Metro Transit is proposing to pilot an Urban Circulator Transportation Service. The urban circulator service will provide a new mobility and connectivity option for residents, workers and students. The Circulator shall connect neighborhood and business destinations with Transit Fixed Routes. This initiative is in line with the City of Laredo Master Plan to foster walkable urban and mixed-use spaces.

The Laredo Urban Transportation Study (LUTS), Metropolitan Planning Organization (MPO) funded the required Transit Development Plan for El Metro. The El Metro (5) year Transit Plan includes a number of recommendations that were approved and adopted by both Metropolitan Planning Organization and the Mass Transit Board (City Council). This notice addresses recommendations for Industrial Park Circulator via a Mines Road Circulator and additional Hubs / Transfer Center (Circulators).

The proposed Circulator Pilot Fare schedule, date, time and locations of the public meetings are listed below.

Proposed Fixed Route for El Metro Circulator Pilot Program Fee
--
